

## Remove Unwanted Objects From Your Photo for Free

Published on 07/19/10

Adva-Soft has announced TouchRetouch Free 1.0 for iPhone and iPod Touch. TouchRetouch is the only portable tool that lets you to remove unwanted content from your photos to achieve new outstanding look. The free version gives you all great features of the full one, but adds a watermark to the final image. TouchRetouch can remove any object, giving the gorgeous look of your photo with a swipe or tap of the finger.

Lviv, Ukraine - Adva-Soft has announced the availability of Free version of TouchRetouch for iPhone and iPod Touch. TouchRetouch is the only portable tool that lets you to remove unwanted content from your photos to achieve new outstanding look. Free version gives you all great features of the full one, while adding a watermark to the final image.

To Buy Or Not To Buy? No More Deciding:

With TouchRetouch photo editing is extremely simple all the way. All that's required is marking the content or objects to be removed from a picture before hitting the 'Go' button. Editing takes just a few minutes of your time. Having so many apps to chose from, how would you know which ones are right for you? Understanding this, we decided to release free version of TouchRetouch. Now you don't have to wonder if it actually works--just download it, try it for free, and see if you need it.

TouchRetouch free can retouch images just like the payed version of the app. The only difference is the watermark added to the final saved image. If you like how it works--go ahead and get the full version to remove watermarks, if no--well, we don't want you to waste your money.

TouchRetouch is a great bargain for anyone who is passionate about photography. Engaging portable photo editing, support of original image resolution and handy opportunity to send images via e-mail will ensure many pleasant moments for you and your friends. We want you, our customers, to be happy, and hope you will enjoy using TouchRetouch.
