

## TouchRetouch 1.0.2 for iPhone - Major Update to Photo Editing App

Published on 08/27/10

Adva-Soft has released TouchRetouch 1.0.2, a major update to its revolutionary photo editing application for iPhone and iPod touch. TouchRetouch features a super easy user interface and special algorithms for image background recovery. Users can remove objects from freshly captured or saved photographs easily, with finger swipes and taps. Version 1.0.2 includes an improved algorithm and viewer, iPhone 4 Retina Display graphics, language localization and more.

Lviv, Ukraine - Announcing that Adva-Soft, the developers of TouchRetouch, has released the latest update for iPhone and iPod touch users. The software offers revolutionary photo editing capabilities, a super easy user interface and special algorithms for image background recovery. This latest update includes major feature additions, like an improved algorithm and viewer, iPhone 4 Retina Display graphics, language localization and more.

TouchRetouch is a revolutionary application and the next step in photo editing for a mobile platform. With TouchRetouch, users can remove objects from freshly captured or saved photographs easily, with finger swipes and taps. The App's special algorithms allows for photo enhancement without compromising any of the other elements within a frame. Any object, shadow, wrinkle or other imperfection can be safely removed from a snapshot without causing distortion to the original features.

Here are some of the original, existing features of TouchRetouch:

- \* In-app video tutorials
- \* Unlimited UndoRedo actions
- \* Smart image background recovery techniques
- \* No distortions in final image
- \* Easy to use interface
- \* Original image resolution
- \* Sending retouched images via e-mail

While the app's previously existing features were impressive, Adva-Soft has updated TouchRetouch with functions that include the iPhone 4 and iOS 4. The company plans to keep step with technology, to ensure that they maintain a cutting edge, always current application that people can easily put to practical use.

To accomplish the next step in that goal, Adva-Soft is proudly offering a major update to TouchRetouch. Users now have even more photo editing capabilities and expanded device options to choose from.

The 1.0.2 update includes the following list of additional features:

- \* iOS 4 multitasking support
- \* iPhone 4's Retina Display graphics
- \* Video tutorials with higher resolution
- \* Improved algorithm for large-scale pictures (for 5 MP and up on iPhone 4)
- \* Improved image viewer for iPhone 4
- \* Added brush radius selection display
- \* Added localization for French, Italian, Japanese, Dutch, German and Russian languages

The new language localization opens up the TouchRetouch app for use in other countries that did not have language access before the update. More users than ever are now able to take advantage of this app's powerful photo editing capabilities.

Device Requirements:

prMac: Publish Once, Broadcast the World :: <http://prmac.com>

- \* iPhone and iPod touch
- \* Requires iOS 3.1 and later, iOS 4 Optimized
- \* 18 MB

**Pricing and Availability:**
