

TouchRetouch 2.0 - The Photo Editing App Adds Social Networking

Published on 12/16/10

Adva-Soft today is announcing its latest release, TouchRetouch 2.0 for iPhone, iPod touch and iPad users. This version features many important updates which add even more outstanding functionalities to this revolutionary photo-editing software. A crystal-clear image viewer for all iDevices, direct sharing via social networks, a powerful clone stamp tool, video tutorials and localized help are now available to all TouchRetouch users.

Lviv, Ukraine - Adva-Soft, the company that developed TouchRetouch, is announcing the release of the version 2.0 of TouchRetouch for iPhone, iPod touch and iPad. The latest version features many important updates which add even more outstanding functionalities to this revolutionary photo-editing software. A crystal-clear image viewer for all iDevices, direct sharing via social networks, a powerful clone stamp tool, video tutorials and localized help are now available to all TouchRetouch users.

TouchRetouch 2.0 is a unique photo editing tool designed for mobile devices. It allows the users to remove objects from freshly captured or saved photographs easily, with finger swipes and taps only, without affecting any other elements of the picture.

First of all, Adva-Soft have improved the image viewer thus enhancing the quality of the images being displayed. Previously, a large picture might have appeared blurred when opened in a smaller screen, now bigger images appear very clearly on all iDevices, and this while retaining their original size.

Then, a brand new clone stamp tool comes very handy by giving the users an opportunity to create unique effects, along with the use of different brushes as well as horizontal/vertical image flipping modes. Also the finger move hint adds a possibility to see what is under user's finger while drawing.

Besides, a user, once done editing a photo, may share it directly via Flickr, Facebook, Picasa, Twitter or email, all from within the app. What's more? TouchRetouch now comes with some new localized text tutorials too. Along with the video tutorials, the users now have access to a clear documentation, illustrations and tips, enabling them to make the best out of this unique product.

Here are some of the features contained in TouchRetouch 2.0

- * In-app video tutorials and localized text instructions
- * Powerful clone stamping
- * Handy finger move hint
- * Customized application settings
- * Unlimited Undo/Redo actions
- * Smart image background recovery techniques
- * Easy to use interface
- * Can be used in portrait or landscape mode
- * Flickr, Facebook, Picasa, Twitter, e-mail direct sharing
- * Original image resolution
- * iOS 4 multitasking support
- * Optimized algorithm for large-scale pictures
- * Brilliantly clear image viewer for all iDevices

The development team at Adva-Soft is constantly making every effort to ensure they keep up with the latest technologies, every improvement being made to enhance the users's experience to the fullest.
